OFFICE OF PETITIONS

DECISION DISMISSING

PETITION UNDER 37 CFR 1.10(c)

In re Patent No. 7,785,621
Issue Date: August 31, 2010
Application No. 10/767,352
Filed: January 30, 2004
Attorney Docket No. 9022-41

This is a decision on the petition filed December 30, 2010, which is properly treated as a petition under 37 CFR 1.10(c) requesting that the above-identified application be considered as filed on January 29, 2004, which is the "date-in" or other official USPS notation on the Express Mail Mailing Label, instead of the currently accorded filing date of January 30, 2004.

The petition is **DISMISSED**.

Any request for reconsideration of this decision should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely (see 37 CFR 1.181(f)). No extensions of time pursuant to the provisions of 37 CFR 1.136 are permitted.

37 CFR 1.10(c) sets forth procedures for filing a petition to the Director for a filing date as of the date of deposit with the USPS, where there is a discrepancy between the filing date initially accorded by the Office and the "date in" entered by the USPS or other official USPS notation.

To be grantable, a petition must:

- (1) be filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date other than the USPS deposit date;
- (2) include a showing that the number of the "Express Mail" mailing label was placed on each piece of correspondence prior to the original mailing; and
- (3) include a true copy of the "Express Mail" mailing label showing the "date in" or other official notation by the USPS.

This petition lacks item (1) above.

Petitioner requests the filing date of January 29, 2004 on the basis that there is a discrepancy between the filing date the USPTO has currently accorded this application and the "date-in" or other official USPS notation on the "Express Mail" mailing label.

Petitioner has failed to establish that this petition was filed promptly. A review of the record shows that the request for an earlier filing date was not raised throughout the prosecution of the application. The issue of the filing date was not raised until after the patent issued. The Office has limited jurisdiction once an application has issued as a patent. The fact that the Office no longer has jurisdiction over the patent upon issuance except as provided in 35 U.S.C. 135, 35 U.S.C. 251 through 256, 35 U.S.C. 302 through 307 and 35 U.S.C. 311 through 316 precludes the Office from changing the filing date in an issued patent, where the issue was not raised prior to issuance of that patent. See MPEP 1305.

Accordingly, the request to correct the filing date is dismissed.
